PROFILE

- I am a 4th year student of Computer Games Development in SETU Carlow.
- I worked as a Programmer at Tall Team for 3 months.
- I competed in a game making competition called Games Fleadh where my team won 2 awards.
- I am looking to gain experience in the game development industry and grow my skills as a programmer with an internship in January 2026.
- I was nominated for the Sun Life scholarship after my 1st year in college because of good grades.

TECHNICAL SKILLS

C++: Learning C++ as part of college and used these skills for the Games Fleadh and other personal projects.

Unity: Used during my internship at Tall Team and self-thought before and since then.

JavaScript / TypeScript: Used in Tall Team when working with Firebase for the game's database.

C#: Taught myself C# when learning Unity.

Graphics Libraries (SFML / Raylib): I learned both as part of college and used them both in personal project, game jams and used Raylib for the Games Fleadh.

OpenGL: Learning OpenGL as part of college and taught myself how to write shaders with it beforehand.

Makefile: During my second year of college, we have been using Makefiles to run projects.

Godot: I am a beginner using Godot, but I have a basic understanding of the engine. I used C# and GDScript when using it.

EDUCATION

Computer Games Development
SETU Carlow, Kilkenny Road, Carlow

2023/Ongoing

Resources Learned:

- C++
- MakeFiles
- SFML
- Raylib

- OpenGL
- Programming Standards / Patterns
- JavaScript
- Unity
- Godot (Only the basics)

Presentation College Carlow, Askea Lawns, Askea, Carlow

2017/2023

Leaving Certificate

WORK EXPERIENCE

Tall Team, Sligo

June 2025 / August 2025

Role:

- Programming in C# - I used C# to code in game systems like revenge kills for the game.
- Programming in TypeScript/JS – I used TypeScript when coding for the Web or editing the game's database.
- Collaborated with the team to brainstorm ideas, playtest and complete different tasks.
- I solved problems by myself when possible and implemented solutions to different issues in the game.
- Wrote up design documents for new mechanics or changing the user's experience with the current UI.

Homesavers, Tullow Road, Carlow

May 2024 / Jan 2025

Role:

- Assist customers – Helping customers figure out what they need to buy when it comes to electronics.
- Operated the till and tried helping fix it if any issues with it arose.
- Placed stock in the correct locations around the store and the warehouse.
- Collaborated with team members to complete several tasks.

ADDITIONAL INFORMATION

-
- Participated in the global game jam for the past 2 years.
 - Competed in the Games Fleadh where my team won 2 awards (Best Game mechanic and Best game using a library). My team consisted of 3 people a programmer (me), artist and music producer.
 - I am fluent in English and Spanish. I also did Japanese and German for 4 years each.

INTERESTS

Sport: I play volleyball in my free time in the college. And do weightlifting at the gym.

Video Games: I enjoy playing skill-based games like multiplayer games or Roguelike games.

Games Development: I am passionate about theory crafting, making and learning about game development.
